Juan,

Quotes are attached.
The 650 door is not insulated.
The 625 door is insulated.

Thanks,
Bud

Juan,

Thanks for waiting.

Unless you remodel the header height, it looks like the height of the opening is 3'-4".

I will quote a 5' 6" x 3' 6" insulated roll up door.

We will not be able to modify to finish of the opening.

If you remove the existing opening cover and trim, there will be exposed block (probably unfinished block).

You will need to cover the unfinished block edges with steel or wood.

Our doors mount inside of the CMU and do not address the perimeter of the opening or the shelf at the bottom.

I will get you this quote before Monday AM.

Thanks again,
Bud Brookins

I'm looking for some pricing of a roll up door that is approximately 5-6 feet wide and 5-6 feet tall must be able to lock on the inside. Will be mounted to cinder block building. See pictures for more details. If possible is there an insulated one?

Below the style we are looking for.
